

## UK NEQAS Blood Coagulation

## **Find a Programme by Test**

Parameter	Programme
ACT+ (Activated Clotting Time)	POCT ACT Programmes
ACT-LR (Activated Clotting Time)	POCT ACT Programmes
Activated Partial Thromboplastin Time	<u>Level 1 Programme</u>
Activated Protein C Resistance Assay	<u>Level 2 Programme</u>
ADAMTS13 Assay	ADAMTS13 Programme
<u>Antiplasmin</u>	Additional Programmes
Antithrombin Activity Assay	<u>Level 2 Programme</u>
<u>Antithrombin Antigen Assay</u>	<u>Level 2 Programme</u>
<u>Apixaban Assay</u>	DOAC Programme
<u>D-Dimer (Lab)</u>	<u>Level 1 Programme</u>
<u>D-Dimer (Point of Care Device)</u> <u>TRIAGE, COBAS</u> h232	POCT D-DIMER  Programme
<u>Dabigatran Assay</u>	DOAC Programme
F8 Gene (FVIII) Haemophilia Genetics	Genetics of Heritable Bleeding & Thrombotic Disorders Programme

F9 Gene (FIX) Haemophilia Genetics	Genetics of Heritable Bleeding & Thrombotic Disorders Programme
<u>Factor II Assay</u>	<u>Level 2 Programme</u>
<u>Factor IX Assay</u>	<u>Level 2 Programme</u>
<u>Factor V Assay</u>	<u>Level 2 Programme</u>
Factor V Leiden (FVL) genetics	Molecular Genetics of Thrombophilia Programme
<u>Factor VII Assay</u>	<u>Level 2 Programme</u>
<u>Factor VIII Assay</u>	<u>Level 2 Programme</u>
<u>Factor X Assay</u>	<u>Level 2 Programme</u>
Factor XI Assay	<u>Level 2 Programme</u>
<u>Factor XII Assay</u>	<u>Level 2 Programme</u>
<u>Fibrinogen Estimation (Clauss)</u>	<u>Level 1 Programme</u>
FVIII and FIX Inhibitor Assay	Additional Programmes
<u>FXIII Assay</u>	Additional Programmes
Heparin Assay/Anti Xa Assay/LMWH	<u>Level 1 Programme</u>
<u>Heparin Dosage Assessment (APTT</u> <u>for UFH)</u>	<u>Level 1 Programme</u>
Heparin Induced Thrombophilia (HIT) Screen	Additional Programmes
<u>Homocysteine (HCY)</u>	<u>Homocysteine</u> <u>Programme</u>
<u>INR (Lab)</u>	<u>Level 1 Programme</u>
INR (Point of Care Device) CoaguChek XS, CoaguChek XS Pro, CoaguChek XS Pro II, ISTAT, XPRECIA STRIDE	POCT INR Programme
<u>Lupus Anticoagulant Detection</u>	<u>Level 1 Programme</u>
<u>Plasminogen Assay</u>	<u>Level 2 Programme</u>
<u>Protein C Activity Assay</u>	<u>Level 2 Programme</u>
<u>Protein C Antigen Assay</u>	<u>Level 2 Programme</u>
<u>Protein S Activity Assay</u>	<u>Level 2 Programme</u>
<u>Protein S Free Antigen Assay</u>	<u>Level 2 Programme</u>
<u>Protein S Total Antigen Assay</u>	<u>Level 2 Programme</u>
Prothrombin Mutation (FII) P20210A  Genetics	Molecular Genetics of Thrombophilia Programme

Prothrombin Time for Diagnosis	<u>Level 1 Programme</u>
Reptilase Programme	Additional Programmes
<u>Rivaroxaban Assay</u>	DOAC Programme
ROTEM (Thromboelastometry)	ROTEM/TEG Programme
TEG (Thromboelastometry)	ROTEM/TEG Programme
Thrombin Generation Test (TGT)	Additional Programmes
Thrombin Time	<u>Level 1 Programme</u>
von Willebrand Factor Antigen Assay	<u>Level 2 Programme</u>
von Willebrand RiCof (Activity) Assay	<u>Level 2 Programme</u>
von Willebrand RiCof (Col.Bind) Assay	<u>Level 2 Programme</u>
<u>VWF Gene</u>	Genetics of Heritable Bleeding & Thrombotic Disorders Programme
